

Redesigning Healthcare

September 1, 2021

Clear Vision: Vance Thompson designs offices with patient focus

With the right vision, incredible office spaces are possible. This team showed that in Sioux Falls and scaled out across multiple states. [Read More](#)

Healthcare spaces, three ways: Variety of projects shows designers' versatility

"It's amazing these three projects came together very quickly." Take a look at three very different healthcare spaces - and how they all got done at essentially the same time. [Read More](#)

When a waiting room becomes more than a waiting room

At Dakota Allergy and Asthma, patients must use the waiting room to monitor for possible reactions. So, our new design turned the space into a place guests can make their own. [Read More](#)

Flexibility in Healthcare Environments

Forward into the flexible future: how a flexibility framework can prepare healthcare spaces for change
